

63. The campaign has not been one in which regimental officers have had many opportunities of especially distinguishing themselves. Its characteristic has been incessant hard work. In this, and in looking after their men, the officers as a body have entirely satisfied me. The brunt of the work and responsibility has been borne by the staff and departmental officers.

64. I beg to submit the names of the following officers who have rendered specially valuable services to the Burma Columns of the Expeditionary Force:—

(1) Colonel C. McD. Skene, D.S.O., commanding the 42nd Gúrkha Light Infantry, the Chin Hills, and the Northern Column, has well sustained a reputation previously gained for command.

(2) Major G. Henry, Royal Engineers. This officer, as my Commanding Royal Engineer, and for some time second-in-command, has rendered me most valuable assistance. I cannot speak too highly of the ability and devotion with which he has thrown himself into his work. I commend his services for special recognition.

(3) Lieutenant E. J. Lugard, 42nd Gúrkha Light Infantry, served with distinction in the Chin Expedition of 1888-89, and has displayed conspicuous gallantry and intelligence in leading his men on several occasions during the operations of this season.

(4) First Grade Officer G. E. Holland, Her Majesty's Indian Marine Service, to whose skilfully applied exertions are entirely due the placing of 600 tons of rations in Kan by water—a most arduous undertaking successfully carried out.

(5) Captain A. H. Clark-Kennedy, Madras Staff Corps, has very ably fulfilled the responsible duties of Chief Commissariat Officer.

(6) Lieutenant A. H. Morris, Royal Irish Regiment, Transport Officer, with the Southern Column, has done particularly good service in his department. I consider him the best animal transport officer that I have ever met. His services are especially worthy of record and reward.

(7) Brigade-Surgeon E. C. Markey, Medical Staff, as my Principal Medical Officer, has had responsible duties. I commend him for his administrative abilities.

From amongst the thirty medical officers who have served with the force on the Burma side, it is difficult, where all did well, to single individuals for special mention; but—

(8) Surgeon-Major G. D. Bourke, Medical Staff,

(9) Surgeon F. A. Rogers, 42nd Gúrkha Light Infantry, senior medical officer with the Northern Column, and

(10) Surgeon W. H. Bean, Medical Staff, having displayed skill, zeal, and energy in their duties, have fallen prominently under my notice.

The following officers have also deservedly earned mention in this despatch for their good service:—

Colonel J. K. Clubley, commanding the 2nd Madras Infantry and lines of communication;

Major G. O. Stoney, 1st Battalion, King's Own Scottish Borderers, who commanded the detachment of his regiment, and was second-in-command of the Southern Column for some time before, invalided;

Captain E. D. Pickard-Cambridge, Bedfordshire, Regiment, Superintendent of Army Signalling;

Captain J. G. Hunter, 10th Bengal Infantry;

Lieutenant T. F. B. Renny-Tailyour, R.E., Survey Officer;

Lieutenant E. W. M. Norie, Middlerex Regiment, Field Intelligence Officer;

Lieutenant D. B. Thomas, 1st Battalion, Cheshire Regiment, for distinguished leading;

Lieutenant W. H. Hildebrand, 27th Bengal Infantry, Hill-Cooly Transport Officer;

Lieutenant F. H. S. Thomas, Madras Staff Corps, Assistant Commissariat Officer, Northern Column; and

Veterinary Surgeon G. H. Evans, Army Veterinary Department.

The name of Major Gordon-Cumming, 1st Battalion, Cheshire Regiment, would have been added to those mentioned for good services had he not been killed in action.

It remains only for me to bring to prominent notice the names and services of my personal staff:

Major H. W. Ind, Royal Artillery, has been my senior Staff Officer. The ability with which he has supported me has won my warm regard. His advancement would be a distinct gain to the service.

Captain C. W. W. Burton, Madras Staff Corps, Junior Staff Officer, has ably assisted Major Ind, and worked hard for the success of the expedition.

Lieutenant J. M. Stewart, 5th Gúrkha Regiment, acted as my orderly officer, and gave me loyal assistance. I consider him a young officer of great promise, one whose military career is well worthy of watching and encouragement.

65. The campaign was officially closed on the 30th April 1890.

From BRIGADIER-GENERAL V. W. TREGGAR, Commanding the Chittagong Column, Chin-Lushai Expedition, to the Adjutant-General in India,—(No. 476, dated Calcutta, the 31st May 1890).

THE operations of the Chittagong Column, Chin-Lushai Expedition, having been brought to a conclusion, I have the honour to submit the following report for the information of His Excellency the Commander-in-Chief.

2. *Composition of Force.*—The force under my command was composed of the following troops:—

CORPS.				Total strength in officers and men.
No. 2 Company, Bengal Sappers and Miners	177
3rd Bengal Infantry	821
Detachment 9th Bengal Infantry	301
2-2nd (P. W. O.) Gúrkha Regiment	779
Half Battalion, 2-4th Gúrkha Regiment	369
28th Bombay Infantry (Pioneers)	731
Detachment, Chittagong Frontier Police	202
TOTAL				3,380

Cachar Column.—Four hundred men of the Cachar Military Police.

The transport consisted of—

2,511 Punjabi coolies.	2,196 mules.
782 local „	71 elephants.

3. The commissariat arrangements not being quite complete at Demagiri, the forward movement of the force had to be delayed for a short time, and the troops not required for immediate use in the front were halted at Chittagong and Rangamatti, where quarters were available and the men easily fed.

4. *Objects of the Expedition.*—The object of the expedition was—

Firstly, to punitively visit certain tribes that have raided and committed depredations in British territory, and have declined to make amends, or come to terms.

Secondly, to subjugate tribes as yet neutral, but now, by force of circumstances, brought within the sphere of British dominion.

Thirdly, to explore and open out, as much as can be done in the time, the as yet only partly known country lying between Chittagong and Burma.

Lastly, to establish posts in the regions visited, so as to ensure complete pacification and recognition of British power.

5. *Distribution of the Force.*—To enable me to carry out the above, I determined on the following distribution of the force under my command:—

Rangamatti and Demagiri garrisons and line of communications up to Fort Lungleh	...	3rd Bengal Infantry.
Northern Column (with which the Cachar Column under Mr. W. W. Daly would co-operate).	½	Company, Bengal Sappers and Miners.
	250 men,	3rd Bengal Infantry.
	300 men,	2-2nd Gúrkha Regiment.
	100 men,	28th Bombay Pioneers.
	50 men,	Frontier Police.
Haka Column, and line of communications beyond Fort Lungleh.	½	Company, Bengal Sappers and Miners.
	Detachment,	9th Bengal Infantry.
	Half battalion,	2-2nd Gúrkha Regiment.
	“ “	2-4th Gúrkha Regiment.
	28th Bombay Pioneers.	
	100 men,	Frontier Police.

The Northern Column I placed under the command of Colonel G. J. Skinner, 3rd Bengal Infantry, with Lieutenant H. W. G. Cole, 2-2nd Gúrkha Regiment, as Staff Officer.

6. When a sufficient quantity of rations had been sent forward to Lower Lungleh, the troops were gradually moved up to hold the line of communication and commence the construction of the road towards Haka.

7. *Despatch of the Northern Column.*—While the six weeks' rations for the use of the Northern Column were being collected, the route to be followed to Lienpunga's village had been reconnoitred for a considerable distance, and the neighbouring chiefs, all of whom proved friendly, were called upon to clear the path of jungle, which they did. The route followed the Klong river, and as rafts could be used on portions of it, the difficulty of carrying the stores forward was much decreased. By the 28th January 1890, all troops, transport and provisions of the Northern Column had left Fort Lungleh. Considering the work to be undertaken by the Northern Column as most important, and being aware that its success depended entirely upon its being able to move about freely in the hills when once Lienpunga had been reached, I made over the whole of my available Punjabi coolies, 1,611 in number, for its use, keeping but 50 men for the Haka Column and 80 to work the tram-line at Burkal.

8. The following troops were employed with the column:—

250 men, 3rd Bengal Infantry.	1 Company (80 men), Bengal Sappers and Miners.
300 men, 2-2nd (P. W. O.) Gurkha Regiment.	50 men, Chittagong Frontier Police.
100 men, 28th Bombay Pioneers.	400 men of the Surma Valley Military Police.

9. The work of the column was—

- (1) To punish Lienpunga for the raid on the Chengri Valley.
- (2) To punish the sons of Vutai for their raid on the Pakuna Rani's village.
- (3) To establish a permanent post in the vicinity of Lienpunga's village, to be garrisoned during the summer.

10. These objects were satisfactorily attained by the column; captives were also as far as possible recovered, and two stockades, named Fort Aijol from the name of the locality, were constructed on an excellent and healthy site, which is also politically advantageous. The post was provisioned for about six months, and an excellent road had been nearly completed connecting it with Changsil. This work was done by Mr. Daly's police detachment.

11. *Road construction.*—Major Leach, R.E., Commanding Royal Engineer, in company with Captain Mullaly, R.E., Field Engineer, arrived at Fort Lungleh on the 29th November, and after consultation with Mr. Murray and Captain Shakespear, who had during the past season been making all necessary inquiries as to the direction the new road should take, and having themselves reconnoitred the country, started the trace on the southern slope of Teriot on the 6th December 1889. From this date the construction of the road was steadily carried on, and the 44 miles to Fort Tregear completed on the 28th February. I would here point out the difficulties which attend road-making in the Lushai country. In the first place, there is the dense jungle, which prevents one seeing a dozen yards ahead; rocks extending over large portions of the hill-sides are constantly met with, and when it was found impossible to avoid them, much time was taken up in blasting operations. Range upon range of precipitous hills, running at right angles to the line of advance, had to be crossed, and the question of a sufficient supply of water at the different camps had also to be considered in determining the trace of the road. Two large rivers, the Matt and the Kolodyne, had to be bridged. These bridges, the former 206 feet and the latter 304 feet long, had to be very substantially built, and were of the crate and trestle type.

12. *Establishment of advanced post.*—It had been my intention to fix upon a site on the Molun Pui for the advanced post, but, on crossing the Kolodyne, the ascent to it was found so precipitous that the road had to be taken up the Darjow Klang instead. Within a short distance of the top of this hill, and at an elevation of 5,100 feet, an old village site was reached, and as the position was good and well suited for a post in every way, with a plentiful supply of good water close at hand, I determined to build the stockade on it. The work of construction was commenced on the 1st March, and all the barracks, godowns, &c., built, and defensive works completed, by the end of April. At the request of the members of the expedition, I named the post "Fort Tregear." There is accommodation for four officers, 200 troops, and 100 coolies.

13. *Garrison for Fort Tregear.*—Instructions having been received that the Bengal Government was anxious that the advanced post should be held by troops, the following garrison was detailed for the purpose:—two British officers, one British medical officer and 200 men of the 2-2nd Gurkhas. Captain F. P. Hutchinson of the above regiment was specially selected to command the post.

In addition to the telegraph, heliographic communication is maintained between Forts Tregear and Lungleh, and signalling parties with all necessary apparatus attached to each post.

14. *Stocking of Forts Lungleh and Tregear.*—The stocking of Forts Lungleh and Tregear was commenced on the 29th March, and completed, the former on the 2nd May and the latter on the 3rd May. Upwards of 6,500 maunds of provisions have been put into the two forts to last for a period of eight months. Continuous and heavy rain for six days in the middle of March interfered greatly with the pushing up of stores; the roads became so slippery that it was impossible to take laden mules along portions of it, especially between Demagiri and Fort Lungleh, where the gradient in parts is steep.

15. *Road construction towards Haka from Fort Tregear.*—Time being short for constructing a permanent road to Haka, it was determined that nothing more than a good mule track should be made beyond Fort Tregear, and the working parties were soon engaged in this work, which was pushed on with all speed and energy. The route to Haka had been thoroughly reconnoitred by Captains Hall and Shakespear, and it was estimated that the road would be 75 miles in length.

The nature of the country lying between the Darjow and Haka is very different from that already passed through, being much more open, free of bamboo, and with but little undergrowth. The last 40 miles into Haka is quite open, and the path used by the natives was found quite good enough in many places for the mules. The mule road was commenced on the 28th February from Fort Tregear, and with the exception of six days, during which all work had to be knocked off on account of heavy rain, completed to Haka on the 18th April—the distance, as measured by the survey party, being 81 miles—making a total of 125 miles of road constructed during this expedition.

16. *Commissariat*.—The Commissariat Department had as usual a most arduous and difficult task to perform; and when it is taken into consideration that the expedition passed through a country where literally not a grain of food-supply is procurable, I feel bound to say that the manner in which the work was carried out reflects the greatest credit on all concerned.

17. *Field Hospital*.—The equipment of the field hospitals was most satisfactory and complete.

18. *Survey*.—A very considerable amount of survey work has been accomplished during this expedition, and reflects the greatest credit on Lieutenant W. J. Bythell, R.E., and the officers under him. Work was commenced from Lungleh early in December, the fixed points on the hill above Fort Lungleh and on Saipuva's old village site, as determined by the late Lieutenant Pollen, R.E., having been identified and observed from, and thus connection secured for an extension of the triangulation eastwards from the bases Saipuya-Rinjam-Chapa Tong, and Lungleh-Rinjam-Chapa Tong, and Kansa Tong. The work from Lungleh, Moisum and Bolpui was completed by the end of January; and the reconnaissances towards Lalthuama's village and Darbilli's village in the months of January and February respectively, which Lieutenant Bythell accompanied, enabled a large amount of detail to be secured.

I was also able to send Lieutenant Bythell to Haka when the 2-4th Gúrkhas marched through to join the Burma Column, and both topography and triangulation have been carried into Haka.

A reconnaissance southwards along the Boinu river by Brigadier-General Symons, which Lieutenant Bythell was allowed to accompany, enabled a large tract of country to the south to be surveyed, and the identity of the Boinu and Kolodyne rivers to be established.

The triangulation has been entirely in the hands of Mr. Stotesbury, Surveyor, 3rd grade, who has worked hard throughout. He is a very willing, energetic and zealous assistant, and has ably maintained his reputation of being a skilled observer and first class draftsmen.

19. *Telegraph*.—During the last expedition the field telegraph line had been completed to Demagiri, and on the 22nd April 1889 the work of laying the wire to Lungsin, 21 miles, was commenced, and completed (with great difficulty, owing to sickness among the coolies) on the 17th May 1889. The whole of the party, Europeans and Natives, suffered from the unhealthiness of the season. The field telegraph office at Lungsin was opened on the 12th September 1889.

Mr. E. O. Walker, Assistant Superintendent of Telegraphs, was appointed to continue the field line from Lungsin to Fort Lungleh, and forwards with the Chittagong Column.

The laying of the field line from Lungsin to Fort Lungleh was started on the 26th October, and finished on the 25th November, a distance of 20 miles. The line between Demagiri and Lungsin had also to be thoroughly repaired, as much damage had been done to it from falling trees and growing vegetation during the rains.

The construction of the line from Fort Lungleh towards Haka was commenced simultaneously with the road, and by the 23rd March had been completed to the Upper Kolodyne, a distance of 65 miles, when orders were received to discontinue the laying of the line towards Haka. Perhaps it is as well that this work has been put off till next winter, when it can be carried out in a permanent manner. The supervision of a temporary line between Fort Tregear and Haka would, during the coming wet season, have been impossible.

The whole of the field work has proved laborious and exhausting to all concerned, owing to steep ascents and declivities, and the dense forest and undergrowth or bamboo jungle everywhere met with. The whole of the work has, notwithstanding these difficulties, been carried out in a most excellent manner, and reflects the greatest credit on Mr. Walker and all his subordinates. Owing to ill-health Mr. Walker had to return to India on the 7th March from Fort Tregear, after which date the laying of the line was carried on by Messrs. Rector and Davies, both of whom have worked very hard and well throughout the expedition; the services of the latter officer I had the pleasure of bringing to notice in my final report on last year's expedition.

20. *Signalling*.—The signalling party, which consisted of two British officers, six British non-commissioned officers, and 37 Native non-commissioned officers and men, proved of the greatest assistance to me, especially when the Northern Column was detached, and during my march from Fort Tregear to Haka; also when parties went out on reconnoitring duty.

The work of the signalling party was very heavy at times, and was carried out in a most efficient manner.

21. *Postal*.—The postal arrangements, under the able direction of Mr. G. B. Groves, Deputy Inspector of Post Offices, who accompanied the expedition as far as Fort Lungleh, worked in a most satisfactory manner throughout.

22. The Government of India having decided that the country east of the Upper Kolodyne should be controlled from Haka, no political action was taken by me during my advance to Haka, but a reconnoitring party under Captains Hall and Shakespear, which met a party from General Symons' force at Tao village on the 26th February and proceeded to Haka, was enabled to recover, without resorting to violence, the skulls of the

three Europeans, and three rifles, a pair of field-glasses and an aneroid taken at the time of Lieutenant Stewart's murder.

Ten captives have been released and sent back to their homes.

There were six other captives who had been carried off from Lalsewa, and ready to be given up, but they refused to return to his village, being evidently quite contented and happy in their new homes.

There is no doubt that the tribes inhabiting this wild country, and with whom we have come in contact, have fully realized the fact that our advent among them is to their advantage in many ways, that our stay will be permanent, and that as long as they behave themselves, desist from raids, and are friendly to us, we have no wish or intention of interfering with them or their property.

Raids on our frontiers may, I consider, be looked upon as troubles of the past, and it now only remains for the political officers to consolidate the work of the expedition.

23. *Return of the Force.*—The work of the Northern Column was accomplished first, and that force was withdrawn during March *via* Cachar, under arrangements made by the General Officer Commanding the Assam District.

In the column working towards Haka under my personal command, I was able to begin sending back the troops in the early part of March, and a detachment of the 3rd Bengal Infantry was the first to leave.

24. The troops escaped the worst influences of the country and climate, as they were at Chittagong and Rangamatti comfortably housed until January, and they were almost all out of the country by early in April, with the exception of the 3rd Bengal Infantry, who held the hot and unhealthy posts on the Demagiri-Lungleh line of communications until the middle of May.

25. *Death of Major Barr, 3rd Bengal Infantry.*—It is with sincere regret that I have to record the death of Major J. E. Barr, 3rd Bengal Infantry, which took place at Rangamatti on the 22nd May 1890, from dysentery contracted at Demagiri. This officer did excellent work on the Demagiri-Lungleh line of communications, and in his death the service has lost a hard-working and reliable officer. I had fully intended bringing his name to the special notice of His Excellency the Commander-in-Chief for good work performed during the expedition.

26. Corps and detachments were employed as follows:—

No 2 Company, Bengal Sappers and Miners.

This company, under the command of Captain R. D. Petrie, R.E., was, on arrival at Fort Lungleh, set to work on the road towards Haka. On the 3rd January half the company under Captain Petrie was detached with the Northern Column; the remaining half under Lieutenant H. J. Sherwood, R.E., continued to work on the road, and also took part in building the post at Fort Tregear. I cannot speak too highly of the heavy and excellent work performed by the Sappers and Miners.

3rd Bengal Infantry.

Two hundred and fifty men of this corps proceeded with the Northern Column, and the remainder were employed in garrisoning Rangamatti and Demagiri, and the different small posts on the Rangamatti-Lungleh line of communications. These duties, which at all times prove uninteresting to troops, were nevertheless cheerfully and carefully carried out, under the orders of the late Major J. E. Barr, who commanded the regiment during Colonel Skinner's absence with the Northern Column.

9th Bengal Infantry.

The detachment of this regiment, which had been employed on the line of communications during the last Lushai expedition, and had since the close of those operations garrisoned Rangamatti, was moved up early, as it was my intention that Captain A. T. Weller and his men should have a chance of seeing some service this time. This, however, as matters turned out, was not to be, and it was found unnecessary to take them beyond Fort Lungleh. The men of this corps have during both expeditions shown great keenness for service, and although much harassed with fever, have at all times carried out their duties in a spirited manner.

2-2nd (Prince of Wales's Own) Gurkha Regiment.

I was exceedingly glad to have the services of this excellent regiment, under the command of Lieutenant-Colonel F. W. Nicolay, placed again under my orders. One wing proceeded under Major F. R. Begbie with the Northern Column, while the other was employed with the Haka Column, 100 men of which, under Captain L. M. M. Hall, led the advance with the tracing party. At a later period 60 men formed the escort of the reconnoitring party under the above officer towards General Symons' force, and was the first of my column to reach Haka. It is needless for me to point out the hard work which Gurkhas are ever ready to go through, and the cheerfulness with which it is invariably performed. The men of the 2-2nd simply worked splendidly.

2-4th Gurkha Regiment.

Owing to the absence of all opposition, the want of transport, and the difficulty of rationing more than a certain number of troops, the half-battalion of this regiment, under the command of Major Sir C. H. Leslie, was not moved up to the front until the 13th February

from which time the men were employed in road construction, earthwork at Fort Tregar, and in clearing jungle with the advance party towards Haka. On the 27th March the whole detachment started from the Upper Kolodyne to join the Burma Column, as was originally intended, and arrived at Haka on the 1st April, having marched along the native paths *via* the Tao (or Sangal Klang). My remarks regarding the manner in which Gürkhas work apply equally to the men of this corps, which is as smart a body of men as one could ever wish to serve with.

28th Bombay Infantry (Pioneers).

With the exception of one company, which proceeded with the Northern Column, the whole regiment, under the command of Colonel R. Westmacott, has been employed on road construction towards Haka, and earthwork at Fort Tregar. This is the first occasion on which the men of this corps have been on field service as a pioneer regiment. They have proved most useful to the expedition, and worked cheerfully and well. When the regiment was ordered to commence its return march to India, I kept 100 men under Captain W. St. L. Chase, *vice*, for work on the mule-road to Haka, and the zealous and admirable manner in which they carried out their duties, under the above officer, was of the greatest assistance in completing the road.

Chittagong Frontier Police.

During the last expedition I was able to make very favourable mention of the men composing the Chittagong Frontier Police Battalion, under the command of Mr. C. S. Murray, District Superintendent of Police. During this expedition 50 men accompanied the Northern Column, and 100 under Mr. S. V. Tayler, Assistant Superintendent of Police, were employed with the advanced party, and did excellent work. They are the most useful and willing men I should ever care to serve with. Besides being keen soldiers, they can build huts, thatch roof, construct rafts, and, in fact, put their hands to anything, and are accustomed to carry all their own kits.

Cachar Military Police.

In the middle of December 1889, orders were issued by Government for a column of 400 men under the command of Mr. W. W. Daly, to be sent from Cachar to co-operate with my Northern Column, in the expedition against Lienpunga and Vutai's sons. The rapid manner in which the men of this battalion were concentrated at Jhalnacheria, and moved up by boat and route march to Changail Bazar, reflects the greatest credit on the corps. One hundred men were left to garrison Changail Bazar, which was selected as the base *dépôt* for supplies, and the remaining 300 men marched to Lienpunga and took part in the operations carried out in the vicinity of that village, and were afterwards employed in building Fort Aijol, which is now garrisoned by 200 men. A detachment of 100 men hold Changail Bazar.

27. *Officers.*—It now only remains for me to bring the names of the following officers, civil and military, to the special notice of His Excellency the Commander-in-Chief, and in doing so, I would take the opportunity of acknowledging most gratefully the cordial assistance I have at all times received from all ranks, British and Native, and to bear testimony to the privations and hardships borne by all during this exceptionally prolonged and arduous campaign, with a cheerfulness and devotion to duty which is most praiseworthy.

The discipline of the troops has been excellent throughout the expedition; and the absence of all crime reflects the greatest credit on the force.

I.—Mr. C. S. Murray, Political Officer, who accompanied the Northern Column, rendered me valuable assistance. He has a perfect knowledge of the people of this country and his hold over them was amply proved by the submissive and rapid manner in which his instructions to the different chiefs to make paths and clear jungle on the route to Lienpunga's village were attended to. Mr. Murray has done much to consolidate our power in the Lushai country since the last expedition, and deserves the greatest credit for the quiet and judicious manner in which he has carried out his political duties.

II.—Mr. E. O. Walker, Assistant Superintendent of Telegraphs. The heavy work done by this very energetic and zealous officer is highly creditable to him. The rapid manner in which the wire was laid and offices opened at the head of the road, as each new camp was fixed upon, proved of the greatest convenience to the expedition, and I cannot speak too highly of the work done by Mr. Walker.

III.—Mr. E. Good, Port Officer, has performed the arduous duties of Transport Officer at Chittagong during the whole time the expedition has lasted, and has carried out his duties in a most energetic, intelligent and satisfactory manner.

IV.—Colonel G. J. Skinner, commanding the Northern Column, has carried out the responsible duties entrusted to him in a sound, able and most successful manner, and is deserving of the greatest credit in bringing the operations in the north to so satisfactory a conclusion.

V.—Captain F. S. Gwatkin, 18th Bengal Lancers, who was my Staff Officer during the last Lushai Expedition, has again been of invaluable assistance to me, and has carried out his duties in a sound, energetic manner and with the greatest tact. He is a most reliable and excellent officer, and I cannot speak too highly of him.

VI.—Captain J. Shakespear, Leinster Regiment, Intelligence and Assistant Political Officer, has performed his double duties in a most painstaking manner, and no officer could have worked harder or with greater success. As a political officer his services have been

invaluable to me, and the knowledge he now possesses of the tribes we have to deal with will, I feel sure, be of the greatest assistance to Government.

VII.—Major H. P. Leach, R. E., Commanding Royal Engineer, has had very arduous duties to perform in the construction of the road from Fort Lungleh to Haka, the bridging of the Matt and Kolodyne rivers and the building of the post at Fort Tregear, and, as was the case last expedition, a very heavy share of the work of this year's operations has fallen upon him, but it has been carried out with the same intelligence, energy and forethought, and he has proved himself an excellent and most reliable officer.

VIII.—Captain H. Mullaly, R. E., Field Engineer. The difficult task of tracing the road from Fort Lungleh to Haka, passing as it does for the first 80 miles through a most difficult country covered with dense jungle, devolved upon this officer; but the work was performed with an energy and intelligence which reflects the greatest credit on him. I would also mention Lieutenant R. A. F. Kingscote, R. E., Assistant Field Engineer, as having again performed excellent and hard work during this expedition.

IX.—Captain W. J. H. Bond, Chief Commissariat Officer. This officer has for the second time under my command in the Lushai country carried out his arduous and most difficult duties in an excellent manner. I look upon him as a most energetic, hard-working and reliable officer. His arrangements, both as regards rations and transport, considering the difficulties to be contended with, have been most successfully carried out.

In the Transport Department I would specially mention—

Captain G. R. C. Westropp, Bombay Staff Corps, Assistant Commissary General,
 Captain B. W. R. Ussher, 7th Dragoon Guards,
 Captain L. E. du Moulin, Royal Sussex Regiment,
 Lieutenant J. O'B. Minogue, Royal Munster Fusiliers,

for hard work done and duties zealously performed.

X.—Captain A. G. F. Browne, 2-3rd Gurkha Regiment, Superintendent of Signalling, has carried out his duties in an energetic and successful manner, and rendered valuable assistance, when communication had to be kept up with the Northern Column and with parties sent out on reconnaissance duty. During the advance from the Upper Kolodyne to Haka, communication was kept open by the heliograph alone.

XI.—Lieutenant W. J. Bythell, R. E., Assistant Superintendent, Survey of India, has worked very hard and successfully during the expedition, and to his energy is due the large amount of survey operations which have been carried out. He is, I consider, a most excellent and intelligent officer, and afforded great assistance to the engineer officers employed in tracing the road.

XII.—Among regimental officers, I would specially mention the following for the zealous, energetic and successful manner in which they carried out their duties:—

- (1) Colonel R. Westmacott, commanding the 28th Bombay Pioneers.
- (2) Lieutenant-Colonel F. W. Nicolay, commanding the 2-2nd Gurkha Regiment.
- (3) Captain A. T. Weller, 9th Bengal Infantry.
- (4) Captain L. M. M. Hall, 2-2nd Gurkha Regiment.
- (5) Lieutenant H. J. Sherwood, R. E., Bengal Sappers and Miners.

XIII.—Surgeon-Major W. R. Murphy, Principal Medical Officer, carried out his duties in an able and intelligent manner and his arrangements, both in the distribution of the field hospitals along the line of communication, and for the return of the sick convoys, were most satisfactory, and worked without a hitch. I have a very high opinion of this officer. The medical officers attached to the expedition have been worked very hard, and have one and all carried out their duties in a most zealous, careful and praiseworthy manner. Troops and followers have been equally well looked after, and every assistance rendered to them. I would, however, specially mention the following officers:

Surgeon-Major S. F. Bigger, at Demagiri, had the heaviest work of the campaign in dealing with the sickness of the followers, and ensuring their satisfactory transit when invalided to the base. His duties were discharged in a most able and admirable manner, and reflect the highest credit on his judgment and ability.

Surgeon E. Hudson dealt with the very critical and severe outbreak of cholera at Burkal with a conspicuous ability of which I cannot speak too highly.

XIV.—Veterinary-Surgeon J. A. Nunn has carried out his duties in a most able and satisfactory manner, and his services during the expedition, in the care and treatment of the baggage animals, have been invaluable. He is, I consider, a very reliable and sound officer.

I would also bring to notice the names of the following officers who were employed with the Northern Column under Colonel Skinner, and on whom much labour and responsibility were thrown.

XV.—Major F. R. Begbie, commanding the detachment of the 2-2nd Gurkhas, who accompanied, with 100 of his men, the flying column to Lienpunga's village, and commanded the column detached to punish the sons of Vutai.

XVI.—Captain R. D. Petrie, R. E., as Field Engineer, was unremitting in his exertions in improving the road and river way and planned and built the stockades at Aijol.

XVII.—Lieutenant G. A. Brownrigg, 28th Bombay Infantry, who was severely wounded in a skirmish near Lienpunga's village on the 23rd February, gave, with his detachment, most valuable assistance in road and river work.

XVIII.—Lieutenant H. W. G. Cole, 2-2nd Gúrkhas, gave me every assistance and proved himself a thoroughly efficient staff officer.

XIX.—Captain O. A. Chambers, Assistant Intelligence Officer, commanded two reconnoitring parties, and collected much information regarding the country and people.

XX.—I was much indebted to Lieutenant (now Captain) W. H. Birkbeck, 1st Dragoon Guards, Assistant Superintendent of Army Signalling, whose duties necessitated a great deal of very hard hill climbing, and through whose arrangements the column was in almost constant communication with Lungleh as long as heliographic signalling was possible.

XXI.—On Captain W. H. Allen, Brigade Transport Officer, ably seconded by the transport officers under him, the very important duty of pushing on supplies to Lienpunga's village devolved. The work was accomplished in, I believe, the shortest possible time, and supplies were always available when required.

28. I would also bring the names of the following warrant and non-commissioned officers to His Excellency's special notice as having performed good work with the expedition, and who hold out promise of proving themselves worthy of advancement in their respective departments:—

Conductor P. McBrien, Bengal Commissariat Department.

Sub-Conductor P. Lyons " " "

Sergeant W. G. Hoare " " "

" H. Fergusson, " " "

" F. J. Skinner, Bombay Commissariat Department.

" W. Elliott, Highland Light Infantry, Signalling Department.

Lance Corporal T. Elkin, Derbyshire Regiment, Signalling Department.

Assistant Apothecary W. J. A. Hogan, Subordinate Medical Department, Bengal.

No. 266, Hospital Assistant Sheopurshun Singh.

No. 285 " " Bukrid Ali.

29. In conclusion, I would beg to tender my sincere thanks—

To Mr. D. R. Lyall, Commissioner of Chittagong, for the very valuable help he has at all times given me in carrying out the objects of the expedition.

To Brigadier-General W. L. Auchinleck, commanding the Presidency District, and the staff officers serving under him, for all the heavy work which has been entailed upon them in connection with the expedition, both in its despatch from, and return to, Calcutta.

To the Marine authorities at Calcutta, for their service in connection with the despatch and transport of all troops, baggage animals, materials, &c., to and from Chittagong.

Candidates are at liberty to name any or all of these branches of knowledge. No subjects are obligatory:

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (g) in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

7. The Examination will be conducted on paper and *visà voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the Selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A selected Candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for two years, during which time they will be examined periodically with a view of testing their progress in the following subjects (h):—

	Marks.
1. Law	1,250
2. Classical Languages of India—	
Sanskrit	500
Arabic	400
Persian	400
3. Vernacular Languages of India (excepting Hindustani when taken up by Madras Candidates, and Gujarati), each	400
4. The History and Geography of India	350
5. Political Economy	350

(d) A considerable portion of the marks for English History and Literature will be allotted to the work selected by the Candidate (see notice on p. 4.) In awarding marks for this regard will be had partly to the extent and importance of the period or books selected, but chiefly to the thoroughness with which they have been studied.

(e) The examination will range from Arithmetic, Algebra, and Elementary Geometry up to the elements of the differential and integral calculus, including the lower portions of applied Mathematics.

(f) The standard of marking in Sanskrit and Arabic will be determined with reference to a high degree of proficiency, such as may be expected to be reached by a Native of good education.

(g) Marks assigned in English Composition and Mathematics will be subject to no deduction. Each science will, for the purpose of deduction, be treated as a separate subject.

(h) Full instructions as to the course of study to be pursued will be issued to the successful Candidates as soon as possible after the result of the Open Competition is declared.

In these Examinations, as in the Open Competition, the merit of the Candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one Examination. The Examination will be conducted on paper and *cied voce*, as may be deemed necessary. The last of these Examinations will be held at the close of the second year of probation, and will be called the "*Final Examination*," at which it will be decided whether a Selected Candidate is qualified for the Civil Service of India. At this Examination Candidates will be permitted to take up any one of the following branches of Natural Science, viz., Agricultural Chemistry, Botany, Geology, or Zoology, for which 350 marks will be allowed. Candidates for Madras and Bombay will also be permitted to compete for Prizes in Hindustani and Gujarati respectively.

10. Candidates will be tested during their probation as to their ability to perform journeys on horseback; and no Candidate will be deemed qualified for the Civil Service of India who fails to satisfy the Civil Service Commissioners of his competence in this respect.

11. Any Candidate who, at any of the periodical Examinations, shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected Candidates.

12. The selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that Service.

13. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, S.W.," at any time after the 1st December 1890. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 31st March 1891 (i).

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

- (1) *Selected candidates will be permitted to choose, according to the order in which they stand in the list resulting from the Open Competition, so long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed; but this choice will be subject to a different arrangement should the Secretary of State or the Government of India deem it necessary (k).*
- (2) *The Probationers, having passed the necessary Examinations, will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*
- (3) *The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the Final Examination. In view of the change in the limits of age, Candidates selected in 1891 will rank in the Service next below those selected in 1892.*
- (4) *An allowance amounting to £300 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's, and Aberdeen; University College, London; and King's College, London; provided such Candidates shall have passed the required Examinations to the satisfaction of the Civil Service Commissioners, and shall have complied with such rules as may be laid down for the guidance of Selected Candidates.*
Candidates are not permitted to migrate from the University originally chosen by them to another University without first applying to the India Office for the permission, and receiving the sanction, of the Secretary of State, who will not entertain such applications unless good and sufficient reasons are assigned.
- (5) *All Selected Candidates will be required, after having passed the first periodical Examination and before receiving the first instalment of their allowance, to attend at the India Office for the purpose of entering into an agreement binding themselves, amongst other things, to refund in certain cases the amount of their allowance in the event of their failing to proceed to India. A surety will be required.*
- (6) *After passing the Final Examination all selected Candidates will be required to attend again at the India Office, with the view of entering into covenants, by which, amongst other things, they will bind themselves to agree to such Regulations for the provision of pensions for their families as may be approved by the Secretary of State for India in Council. The stamps payable on these covenants amount to £1.*
- (7) *Candidates rejected at the Final Examination of 1893 will in no case be allowed to present themselves for re-examination.*

(i) These forms should be accompanied by evidence on the points mentioned in Regulation 2, and by a list of the subjects in which the candidate desires to be examined. Evidence of health and character must bear date not earlier than 1st March 1890. Applications for leave to alter or add to the list of subjects named will not be entertained unless received on or before the 5th May.

(k) This choice must be exercised immediately after the result of the Open Competition is announced on such day as may be fixed by the Civil Service Commissioners.

This Examination will be held at the close of the year of probation, and will be called the "Final Examination."

10. Candidates will be tested during their probation as to their ability to perform journeys on horseback; and no Candidate will be deemed qualified for the Civil Service of India who fails to satisfy the Civil Service Commissioners of his competence in this respect.

12. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, S.W.," at any time after the 1st December 1891. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 31st May 1892 (g).

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

- (1) Selected Candidates will ordinarily be permitted to choose, according to the order in which they stand in the list resulting from the Open Competition, so long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed; but this choice will be subject to any other arrangement which the Secretary of State or the Government of India may deem necessary (h).
- (2) Selected Candidates will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.
- (3) The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations. Candidates selected under these Regulations in 1892 will, in view of the alteration in the limits of age, have seniority over the Candidates selected under the previous Regulations in 1891.
- (4) An allowance amounting to £100 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's, and Aberdeen; University College, London; and King's College, London; provided such Candidates shall have passed the Final Examinations to the satisfaction of the Civil Service Commissioners, and shall have complied with such rules as may be laid down for the guidance of Selected Candidates.

* These subjects may not be offered by any Candidate who has offered them at the previous Examination.

(f) A syllabus, showing the extent of the examination, will be issued to the successful Candidates as soon as possible after the result of the open Competition is declared.

(g) These forms should be accompanied by evidence on the points mentioned in Regulation 2, and by a list of the subjects in which the Candidate desires to be examined. Evidence of health and character must bear date not earlier than 1st May 1892. Applications for leave to alter or add to the list of subjects named will not be entertained unless received on or before the 5th July.

(A) This choice must be exercised immediately after the result of the Open Competition is announced on such day as may be fixed by the Civil Service Commissioners.

Candidates are not permitted to migrate from the University originally chosen by them to another University without first applying to the India Office for the permission, and receiving the sanction, of the Secretary of State, who will not entertain such application unless good and sufficient reasons are assigned.

- (5) The allowance of £100 will not be paid to any Selected Candidate until he has been certified by the Civil Service Commissioners to be entitled to be appointed to the Civil Service of India; and every Certificated Candidate must, before receiving his allowance, attend at the India Office and enter into an agreement binding himself, amongst other things, to refund in certain cases the amount of his allowance in the event of his failing to proceed to India. A surety will be required.
- (6) All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to agree to such Regulations for the provision of pensions for their families as may be approved by the Secretary of State for India in Council. The stamps payable on these covenants amount to £1.
- (7) Candidates rejected at the Final Examination of 1893 will in no case be allowed to present themselves for re-examination.

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

SYLLABUS.

Showing the extent of the Examination in certain subjects at the Open Competition for admission into the Indian Civil Service in 1892.

THE Regulations governing the Open Competition for admission into the Indian Civil Service have been framed with a view to the principle regarded by Lord Macaulay's Committee, in 1854, as essential, viz., that the object of the competition should be to secure for the Indian Civil Service officers who "have received the best, the most liberal, the most finished education that their native country affords." The scheme of examination has accordingly been made to embrace most of the subjects of the Honour Schools in the Universities of Great Britain and Ireland. In administering the scheme, the Civil Service Commissioners, concurring with Lord Macaulay's Committee in the opinion "that no candidate who may fail should, to whatever calling he may betake himself, have any reason to regret the time and labour which he has spent in preparing himself to be examined," desire to avoid all disturbance of the general course of University studies, and to render it possible, with due regard for the principle of Open Competition, for those who have graduated with honours at the Universities to attend the Examination for the Indian Civil Service with good prospects of success. The appended Syllabus shows in outline the intentions of the Commissioners with regard to the extent and character of the examination in those subjects which seem to require further definition. The scope of the examination in the subjects not mentioned in the Syllabus is sufficiently defined in the scheme published in the Regulations themselves. The Examiners will be instructed to keep the Standard in each subject up to the level of the highest course of study pursued in the Universities.

English Composition.—An Essay to be written on one of several subjects specified by the Civil Service Commissioners on their Examination Paper.

English Language and Literature.—The Examination will be in two parts. In the one the candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria:

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Swift, Defoe, Addison, Johnson, Burke, Scott, Southey.

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the candidates have studied the chief productions of the greatest English writers in themselves, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English literature. Candidates will also be expected to show that they have studied in these authors the history of the English language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other, year by year, in the order indicated:—

- | | |
|--------|--|
| 1. | 1340—1600 |
| (1892) | [Chaucer to Spenser] |
| 2. | 1600—1700 |
| (1893) | [Shakespeare to Dryden] |
| 3. | 1700—1800 |
| (1894) | [Pope to Cowper] |
| 4. | 1800—1832 |
| (1895) | [Nineteenth Century writers to the death of Scott] |

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English language and literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the second period; all the works of Swift within the third; all the works of Scott and Wordsworth within the last.

French Language and Literature.—Passages for translation from French into English, and from English into French; Critical questions on the French Language and Literature.

German Language and Literature.—As in French.

Latin Language and Literature.—Passages for translation from Latin into English. Composition in Prose and Verse (in the place of the latter may be taken, by those who prefer it, a paper of critical questions on the style of the Latin orators and poets, based on Cicero, *De Oratore*, and Quintilian, *Institutiones Oratoriae*, Lib. x.); Critical Questions on the Latin Language and Literature.

Greek Language and Literature.—Translations from Greek into English. Composition in Prose and Verse (in the place of the latter may be taken, by those who prefer it, a paper of critical questions on the style of the Greek orators and poets, based on Aristotle's *Rhetoric* (Book iii) and *Poetics*). Critical Questions on the Greek Language and Literature.

Sanskrit Language and Literature.—Passages for translation into English from Sanskrit and from Sanskrit into English. History of Sanskrit Literature (including knowledge of such Indian history as bears upon the subject); Sanskrit Grammar; Vedic Philology.

Arabic Language and Literature.—Translations as in Sanskrit; History of Arabic Literature; Arabic Grammar; Arabic Prosody.

English History.—General questions on English History from 800 to 1848; questions on the Constitutional History of England from 800 to 1848.

Questions covering the whole period named will be set, but Candidates will be allowed to attempt only a limited number of them.

General Modern History.—Candidates may, at their choice, be examined in any one of the following periods:—

800 ————— 1193.
2. From the Third Crusade—The Diet of Worms.
1193 ————— 1521.

1521 ————— 1715.
4. From the accession of Louis XV.—The French Revolution of 1848.
1715 ————— 1848.

Periods 3 and 4 will include Indian History.

Greek History.—Questions on the General History of Greece to the death of Alexander; questions on the Constitutional History of Greece during the same period.

Roman History.—Questions on the General History of Rome to the death of Vespasian; questions on the Constitutional History of Rome during the same period.

In Greek and Roman History Candidates will be expected to show a knowledge of the original authorities. Questions covering the whole period named will be set, but Candidates will be allowed to attempt only a limited number of them.

Mathematics.—Pure Mathematics: Algebra, Geometry (Euclid and Geometrical Conic Sections), Plane Trigonometry, Plane Analytical Geometry (less advanced portions), Differential Calculus (Elementary), Integral Calculus (Elementary).

Orders and Notifications by the Government of India. &c.

[Reprinted from the "Gazette of India."]

The following order, issued by the Government of India in the Home Department, is republished for general information.

C. C. STEVENS,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Simla, the 24th October 1890.

No. 1569.—In exercise of the powers conferred by section 13 of the Charitable Endowments Act VI of 1890, the Governor-General in Council has been pleased to frame the following forms and make the following rules:

Note.—In these rules "the Government" means the Local Government or, when the Governor-General in Council exercises under section 7 of the Act the powers conferred by sections 4 and 5 on the Local Government, the Government of India.

1. It being the wish of the Governor-General in Council that the Government should not interfere under the Charitable Endowments Act, 1890 (hereinafter referred to as the Act), in cases of doubt or dispute, and that the jurisdiction of the Courts in such cases should in practice be left unaffected by the Act, the cases with which the Government will have to deal may be divided into two classes, namely, (1) cases of trusts, whether already established or proposed to be established, out of which it may be confidently predicated that contention cannot arise, and (2) cases out of which contention may possibly arise, however remote or unlikely the contingency. To the first class will belong such cases as those of Lawrence Asylums, Railway Schools, and endowments in Government securities in general aid of the funds of specified dispensaries or schools. To the second class will belong most cases in which private persons apply for a vesting order or a scheme or modification of a scheme and all cases in which it is proposed to depart in any respect from the ascertained wishes or presumable intentions of the founder of an endowment. In cases belonging to the first class previous publication of proposed vesting orders and of proposed schemes and modifications of schemes will ordinarily be unnecessary: in cases belonging to the second class there should ordinarily be previous publication of such documents.

2. (1) When the Government, having regard to the last foregoing rule, is of opinion that a proposed vesting order, or a proposed scheme or modification of a scheme, should not be made or settled without previous publication, it shall publish a draft of the proposed order, scheme or modification, or a proper abstract thereof, signed by one of its Secretaries, for the information of persons likely to be affected thereby.

(2) The publication should be made in the official Gazette and in such other manner as the Government may prescribe.

(3) There shall be published, with the draft or abstract, a notice specifying a date at or after which the proposed order, scheme, or modification will be taken into further consideration.

(4) The Government shall consider any objection or suggestion which it may receive from any person before such date with respect to the proposed order, scheme or modification.

3. The cost of the previous publication under the last foregoing rule of any proposed order, scheme or modification of a scheme, and any other costs incurred or to be incurred in the making or settlement of the order or of the scheme or modification, shall be paid by the applicants for the order, scheme or modification, and, if the Government so direct, may be paid by them out of any money in their possession pertaining to the trust to which their application relates.

Incidence of cost of vesting orders and of schemes.

4. In the case of property vested in a Treasurer of Charitable Endowments other than securities for money, the persons acting in the administration of the trust, and having under section 8, sub-section (3), of the Act the possession, management, and control of the property and the application of the income thereof, shall, in books to be kept by them, regularly enter or cause to be entered full and true accounts of all moneys received and paid respectively on account of the trust, and shall, on the demand of the Government, submit annually to such public servant as the Government may from time to time appoint in this behalf, in such form and at such time as the Government may from time to time prescribe, an abstract of those accounts and such returns as to other matters relating to the administration of the trust as the Government may from time to time see fit to require.

5. The following are prescribed as the fees to be paid to the Government in respect of any property vested under the Act in a Treasurer of Charitable Endowments:

(1) In the case of securities for money—

- (a) For the purchase and sale of securities, a commission of $\frac{1}{4}$ th per cent., in addition to any actual outlay on brokerage.
- (b) For drawing interest, a commission of $\frac{1}{4}$ th per cent.
- (c) For remitting interest, the actual charges incurred.

(2) In the case of property other than securities for money, the actual charges incurred by the Treasurer in the discharge of his functions in respect of the property

The Treasurer may deduct any fees payable to the Government on account of any endowment from any money in his hands on account of such endowment. If he holds on such moneys the amount should be claimed from the administrators.

6. All copies of vesting orders received by the Treasurer will be filed together and will be numbered in consecutive order of their receipt; when a sufficient number have been received, they will be bound in volumes. A note will be made on each vesting order of any entries in the registers prescribed below relating to the property vesting in the Treasurer under the order.

Accounts of securities for money.

7. On the receipt of any securities for money, or on their purchase by himself, the Treasurer will record their receipt in a register in Form No. 1. He will also keep a separate account for each endowment in Form No. 2, in which he will record all receipts including any amounts sent for investment, and all disbursements. In the cash account the Treasurer will record only his own transactions (such as the payment of the money to the administrators), not the transactions of the administrators of the endowment fund.

8. The Treasurer will keep a record in the appropriate columns of Form No. 1 of all securities returned by him. The return will also be entered in Form No. 2, where the amount returned will be deducted from the capital of the endowment concerned.

9. If the securities elsewhere than in Madras and Bombay consist of Government promissory notes, they will be forwarded to the Comptroller-General for custody under the general rules laid down in the Civil Account Code; but the securities held under the Act must be forwarded separately, and the Treasurer will keep a separate register under those rules for these securities, and will also keep a separate file of the acknowledgments.

The Treasurer will retain in his own custody all securities for money other than Government promissory notes.

10. The Treasurer, on receipt of any interest on securities, will pass it through his General Trust Interest Account under a special sub-head, "Interest on Charitable Endowments under Act VI of 1890." The interest will then be distributed to the various ledger accounts (Form 2), in which the gross amounts must be shown, any deductions for fees, &c., being shown as a charge, and the payment of the balance to the administrators being also shown as a disbursement. The entries in the ledger of interest received must be taken out and agreed annually with the total amount of interest drawn.

11. The register in Form No. 1 will show all securities vested in the Treasurer as such, whether actually held by him or by the Comptroller-General as his agent. In order to prove the balance actually held by the Treasurer in his own hands, a balance sheet in Form No. 3 will be made out annually and agreed with the actual securities in the Treasurer's possession; such agreement will be certified on the balance sheet.

12. The accounts of the interest and the annual agreement of balance will be made at the time which the Local Government may direct under section 9 of the Act for the publication of the list of properties held, and of the abstract of accounts.

Property other than securities.

13. The Treasurer will enter in a register in Form No. 4 any property other than securities which becomes vested in him, and will record in the same register against the original entry a note of any property of which he is divested.

Publication of lists and abstract of accounts.

14. The list of properties vested in the Treasurer to be published annually shall be in Form No. 5. Part I will relate to properties other than securities; Part II will relate to securities, and will also contain the abstract of accounts required by the Act to be published. The Treasurer will demand and receive acknowledgments from the administrators of the correctness of the balances when published.

Audit of accounts.

15. The Treasurer's accounts will be audited—

- (a) where there is an Outside Audit Section of the Accountant-General's Office,—by such section annually;
- (b) where there is no such section,—by a Deputy Auditor-General at such periods as the Auditor-General may direct.

C. C. STEVENS,

Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.—PUBLIC.

Simla, the 27th October 1890.

No. 2212.—Under the provisions of section 9 of the Statute 24 and 25 Viet. Cap. 67, the Governor-General in Council is pleased to direct that His Excellency's Council shall assemble at Calcutta in the jurisdiction of the Lieutenant-Governor of Bengal.

J. P. HEWITT,

For Offg. Secretary to the Govt. of India.

that Her Majesty's Government remitted the duties in deference to the wishes and interests of the people of India.

2. The question of abolishing the British system of hall-marking and the views of the Indian Government on the matter were also considered. But it was decided not to interfere with the law and practice concerning hall-marking in the United Kingdom. The majority of people interested in the trade and those conversant with the artistic side of the question are believed to be strongly in favour of retaining the system of hall-marking. Her Majesty's Government proposed, however, to mitigate as far as possible any inconvenience under which the Indian silver trade might suffer, by providing that Indian silver work bearing an Indian hall-mark affixed under the authority of your Government should be admitted into the United Kingdom without being subjected to the British hall-mark regulations.

3. The Bill dealing with the matter will be forwarded to Your Excellency as soon as it is introduced. Meanwhile I shall be glad to learn at an early date what standard of fineness your Government would, with due regard to the practice of Indian silversmiths, propose to adopt for the Indian silver hall-mark. I

By book-post.

forward a copy of a Parliamentary return showing the standards of fineness adopted by different European nations which maintain a system of hall-marking.

4. It is perhaps needless for me to observe that, if a hall-mark is established for India, it might be permissive and not obligatory. Any dealer who desired to send silver ware to England without being liable to the British hall-marking system would get his wares assayed and marked in India under such rules as Your Excellency might prescribe. I anticipate that the new law and practice in the United Kingdom will follow the practice now existing, whereby artistic silver ware or ware belonging to private persons and not intended for sale is exempted from the

hall-mark regulations.†

5. I forward a copy of a letter from Mr. W. Carlton Wood, on behalf of Messrs. Orr & Sons, on the subject of hall-marking in India, together with the reply that I have caused to be sent thereto.

I have the honour to be,

MY LORD MARQUIS,

Your Lordship's most obedient, humble Servant,
(Signed) CROSS.

ENCLOSURES.

No. 1.

41, BASINGHALL STREET, LONDON, E.C.,
29th April 1890.

MY LORD,—As representing Messrs. P. Orr & Sons, of Madras, silversmiths, and in view of the answer given last night in the House of Commons by the Chancellor of the Exchequer, that communications would be addressed to the Government of India before the proposed standard for hall-marking Indian silver plate was fixed, I beg respectfully to submit for consideration some practical points on the inherent difficulties of compulsory hall-marking, and with a view of demonstrating that "rupee standard" will not meet the requirements of Indian manufacturers:—

(1) The vast body of Indian silversmiths are of the small trader class. The silver used by them from time immemorial is obtained by melting rupee coins. No other silver is generally obtained by men of that class. They are *not* silver refiners.

(2) It is a necessity that solder be of a harder and inferior quality to the metal in the article soldered. The Indian silversmith notoriously solders heavily: consequently it is evident that no article made from rupee coins would pass the English Hall if the rupee standard be adopted. It is well known that English silversmiths overcome the difficulty of the solder by obtaining from the bullion dealers silver $\frac{1}{2}$ to 1 dwt. per ounce *better* than standard, thereby rendering the whole article standard.

- (3) Coins in use contract dirt, and it is doubtful if metal obtained from a quantity of rupee coins thrown into the melting pot would pass the English Hall even in the few articles where no solder is used.
- (4) The great objection of Indian manufacturers to the English hall-marking is that the system adopted, "the scrape and parting assay," is unsuitable to finished goods, which are thereby rendered unsaleable without being returned to a workshop. The English manufacturers' practice of sending goods to the Hall "in the rough" is practically not open to Indian makers. If hall-marking remains compulsory, I beg to submit that the French system of assaying finished plate by "the touch," which in no way damages the goods, should be adopted here. I recognise that "the touch" is not so absolutely accurate as the "the scrape," but I respectfully submit that a plan proved adequate in France can scarcely be inapplicable in England.

The difficulty of fixing an arbitrary standard that will really meet the requirements of Indian trade is considerable, and I respectfully submit that optional hall-marking is the true remedy. If this is unattainable, I beg to recommend that, subject to Indian plate bearing a stipulated mark or letter defining it as Indian, it be allowed free sale in this country without assay.

I respectfully submit that, if the rupee standard be adopted and hall-marking with the system of "the scrape" be compulsory, no trade in ordinary Indian plate can result, and the assertion will be made in India that the British Government have given with one hand and taken away with the other.

I have, &c.,

RULES AND GENERAL MATTERS.
RESOLUTION.

The 12th December 1890.

READ—

Despatch from the Secretary of State for India, No. 190 (Financial), dated 28th August 1890.

RESOLUTION.—In this Despatch the Secretary of State deals with the recommendations made in the report of the Select Committee of the House of Commons on East India (Civil Servants). His Excellency the Governor-General in Council directs the publication of the decisions arrived at on such of the questions raised as can be disposed of without further reference.

2. In regard to the rate of exchange for payment of pensions, the Secretary of State has decided that all pensions granted in rupees, which are payable at the Home Treasury to residents in the United Kingdom, or which are payable to residents in any other country in which the standard of currency is gold, shall be paid, with effect from the 1st of April 1890, at the rate of exchange annually fixed for the adjustment of transactions between the British and Indian Governments, subject to the condition that the rate of one shilling and nine pence the rupee is fixed as the minimum rate at which the conversion into sterling shall be effected.

3. In regard to the recommendation of the Committee that some period of furlough should in all cases count as service for pension, the Secretary of State has proposed, and the Government of India has agreed, that one year's leave with allowances in 15 years' service and two years in 25 years' service shall be allowed to count as service for pension, provided that such leave is taken out of India.

4. The recommendation of the Committee that service should qualify for pension from the age of 20, instead of 22, has been accepted.

5. A list of amendments to the Civil Service Regulations is appended to this Resolution, showing the additions and corrections made in accordance with the foregoing decisions.

6. A further Resolution will issue subsequently dealing with the remaining questions regarding the leave and pension rules when they are finally decided.

ORDER.—Ordered that this Resolution be communicated to all the Departments of the Government of India; to all Local Governments and Administrations; to the Comptroller and Auditor General; to all Accountants-General and Comptrollers; the Director-General of the Post Office of India; the Mint and Assay Masters, Calcutta and Bombay; the Commissioner of Northern India Salt Revenue; and the Superintendent, Government Printing, India.

GENERAL.

6. All the accounts and registers of the District Board shall be kept in English. All books of accounts and registers shall be substantially bound and paged before being brought into use, and no accounts shall be prepared on loose sheets of paper or in loosely bound volumes.

7. All corrections and alterations in accounts shall be neatly made in red ink and attested by the initials of the Chairman. All corrections and alterations in a voucher shall be attested by the payee. *Erasures shall on no account be permitted in registers, statements, vouchers or accounts of any description.*

8. After the budget estimates for the year, or supplementary estimates have been sanctioned, the District Board, acting in the exercise of the powers conferred on them by section 32 (e) of the Act, or the Rules made under the said section of the Act, may, from time to time, by a general or special resolution, authorise the Chairman or other executive officer of the Board, to expend any sum, or a part of any sum provided in such estimates, for the purpose to which it has been therein assigned.

9. No expenditure shall be incurred for which provision has not been made in the budget estimate for the year, or in a supplementary budget estimate, and which has not been duly sanctioned by the District Board, or by the Chairman or other executive officer of the Board acting in the exercise of the powers conferred on him by the Rules made under the Act.

10. The Chairman shall cause to be kept a register of establishment in Form No. XIX, showing, in respect of all establishments whatsoever employed by the District Board, the particulars specified in the form. A separate page or section shall be allotted to each class of establishment. All changes made by competent authority from time to time in the numbers, nomenclature, or salaries of the establishment shall be immediately entered in the register with the number and date of the orders authorizing the change. A space should be left under each name for the entry of alterations, and a fresh corrected list should be written up annually, or as often as required.

No entries regarding officiating incumbents, or grant of leave, should be made in this register.

EMBEZZLEMENTS.

11. The Chairman shall promptly report to the Accountant-General, Bengal, and the Commissioner of the Division, through the Magistrate of the district, if he is not the Chairman, the occurrence of any embezzlement or irregularity in the accounts of the District Board which may come to his notice, and shall observe the rules and procedure prescribed for reporting embezzlements and irregularities occurring in Government offices. [See Civil Account Code, page 222, rule 7.]

BUDGET ESTIMATES.

12. The Collector of the district shall, on or before the 1st October in each year, prepare and transmit to the District Board an estimate of the balance of the District Board Fund to be transferred to the credit of the District Fund during the financial year next ensuing under section 52, clause (1) of the Act.

13. A budget estimate in Form No. I, showing the probable receipts and expenditure of the District Fund under all heads during the ensuing financial year shall be prepared by the Finance Committee constituted under section 55 of the Act, and shall be laid before the District Board at a meeting to be held not later than the 15th October in each year. The budget shall be submitted to the Commissioner of the division not later than the 1st of November, and by the Commissioner to the Accountant-General on the 1st of December.

14. The budget estimate shall set forth estimated receipts and expenditure under major, minor, and detailed heads of account, and the opening and closing balances, and shall be accompanied by explanatory notes showing, wherever necessary, how the figures have been arrived at, and especially explaining any new and important item of receipt or expenditure; and when any new charge requires the sanction of superior authority, a copy of the order of sanction shall invariably be attached.

15. The District Board shall never, except with the previous sanction of the Lieutenant-Governor, exhaust or exceed its balance in the treasury; and the budget estimates shall be framed so as to provide for an adequate working balance throughout the year, and for an adequate closing balance. The Commissioner shall decide what constitutes an adequate working and closing balance, and his decision, which shall be final, shall be communicated to the Accountant-General, Bengal.

16. No change shall be made in the prescribed major and minor heads of account, unless authority for an alteration is communicated to the District Board by the Accountant-General, Bengal. If, therefore, any additions or alterations are thought to be required, the question should at once be referred to the Accountant-General, who will, if necessary, submit the question for the orders of Government. If, for administrative purposes, it is found convenient to sub-divide the detailed heads in the abstract registers, there is no objection to this being done; but all statements and returns shall be compiled according to the headings here prescribed.

17. In preparing the budget, what is expected to be paid (under proper sanction) during the year shall be provided for, not the liability likely to be incurred or falling due within the year.

18. For fixed charges, the explanatory notes should show the full sanctioned scale, the number of employees, rate of pay, &c.

19. The District Board may at any time, with the previous sanction of the Commissioner, and not otherwise, transfer grants from one major head of account to another, and from one minor head to another minor head subordinate to the same major head.

20. If at any time during the year the District Board has reason to believe that the budget under any head is likely to be exceeded, and that the excess cannot be met by a reduction under some other head, a supplementary budget estimate shall be prepared with the least possible delay and submitted through the Magistrate for the orders of the Commissioner in the manner prescribed in sections 47 to 49 of the Act.

21. If the Board has reason to suppose the receipts under any head are likely to fall materially short of the budget estimate, a revised budget estimate shall be prepared with the least possible delay, and submitted as above for the orders of the Commissioner.

TRANSACTIONS WITH THE TREASURY.

22. The District Fund shall be lodged with the Collector of the district, who shall keep a separate account thereof.

23. The District Board shall not appropriate towards expenditure any moneys received by its servants; but all such moneys shall be remitted or paid by the Board's servants direct to the treasury at once, and shall not be paid in through the District Board's office. See, however, rule 101 regarding educational bills paid net.

24. All money paid into the treasury to the credit of the District Fund, whether by servants of the District Board or others, shall be accompanied by a chalan in Form No. II.

This chalan shall be in triplicate, having the words "Original," "Duplicate" and "Triplicate" printed or written in red on the first, second and third parts respectively. The first part shall be retained by the treasury office, the second part shall be sent to the office of the District Board whenever the pass-book is returned, and the third part shall be delivered to the person paying in the money.

25. All moneys remitted to the treasury to credit of the District Board, and all payments made by the treasury on cheques or otherwise on account of the District Board, shall be entered in a pass-book; the pass-book shall remain in the custody of the Chairman, and it shall be sent to the treasury with every remittance, and also on the last working day of every month. On receipt of the pass-book by the treasury officials, the entry of the remittance made (if any) shall be initialled by the treasury officer, and then the charge side shall be written up to date, and the book returned at once to the office of the District Board.

26. The pass-book will be supplied by the treasury. It is not a District Fund account book, but is simply a copy of the account kept in the treasury of the money paid in to the credit of, and disbursed on account of, the District Board, and must therefore always be written up *only by the Government Treasury Department* by whom the original account is kept.

27. No entries or marks shall, under any circumstances, be made in the pass-book by any one connected with the District Board's office.

28. At the close of each month the balance in the pass-book shall be struck, the amount written in words, and signed by the Treasury Officer.

29. The Chairman shall examine the pass-book from time to time, and shall immediately call the attention of the Treasury Officer to any discrepancy that may appear between the credits and debits shown in the pass-book, and those shown in the accounts of the District Board's office.

30. The form of the pass-book prescribed by Accountant-General, Bengal's Circular No. 116T—M, dated 8th May 1890, is—

DR.	The Treasury or bank of.....	in Account Current
	with the District Fund	CR.

[illegible]

31. When a grant is made to the District Fund from Provincial revenues, either as a general grant-in-aid, or for expenditure on any specific object, the Accountant-General shall, in the first case, at the beginning of the year, or, in the second case, on receipt of orders, instruct the Treasury Officer to credit the amount of the grant to the District Fund. The credit shall be made by book transfer; no bill or cheque shall be drawn, and no money shall be paid out of the treasury.

32. On the last working day of each month, the balance of the road cess collections of the month, after deducting from the amount received on account of "cess on land" the charges for collections, shall be transferred to credit of the District Fund, and entered in the pass-book in the following details :—

	Rs.	A.	P.	Rs.	A.	P.
Total Road Cess on lands ...						
Deduct charges for collections, &c., incurred during the month, less the proportion of the charges payable by Government for Public Works cess ...						
Cess on mines and railways...						
Interest on arrear collections of Road Cess ...						
Total ...						

33. The Treasury Officer shall supply the Chairman, immediately after the close of each month, with a balance certificate in the following form :—

Abstract of District Fund Account for the month of _____ in the Treasury of _____

	Rs.	A.	P.		Rs.	A.	P.
1. Balance brought forward from last month ...				4. Debited in cash account of this month ...			
2. Credited in cash account of this month ...				5. Other debits, as per Accountant-General's No. _____, dated ...			
3. Other credits, as per Accountant-General's No. _____, dated ...				6. Balance at end of month ...			
TOTAL ...				TOTAL ...			

34. This certificate shall be sent by the District Board to the Accountant-General, Bengal, attached to the monthly account and audit certificate.

PAYMENT OF CLAIMS.

35. For the payment of petty charges, the Chairman shall hold a permanent advance of such amount as the District Board may fix from time to time; provided that, without the sanction of the Commissioner, the District Board shall not fix the amount of the permanent advance at more than Rs. 100.

36. The permanent advance shall be recouped as often as may be necessary, in the manner prescribed in rules 65 and 66 below.

37. Payments of not more than Rs. 20 shall be made from the permanent advance; provided that no charge on account of the salary of any employé of the District Board shall be made otherwise than as prescribed in Rules 38 and 42.

38. All payments exceeding Rs. 20 shall be made by cheque, unless there are special circumstances rendering payments in cash desirable; provided that all payments of sums above Rs. 10 on account of salaries of employes of the District Board shall be made by cheque.

39. Cheque-books will be supplied by the Treasury Officer only, and no other form shall be used. The cheque-books and the counterfoils of used cheques shall be kept in the custody of the Chairman.

40. Cheques for sums not exceeding Rs. 100 shall be signed by the Vice-Chairman, or by the Chairman, or if both be absent, by a member of the Finance Committee. Cheques for sums exceeding Rs. 100 shall be signed both by the Chairman and the Vice-Chairman, and if either of them be absent, such cheques shall be signed by the Chairman or Vice-Chairman present, and another member of the Finance Committee.

41. No cheque shall be signed unless required for immediate delivery to the person to whom the money is to be paid.

42. Every cheque shall be drawn in English in favour of the person to whom the money is actually due. Payment shall not be made to any other person except on production of a written authority from the creditor to receive it on his behalf. This rule does not apply to cheques issued for a sum of money distributable as pay or wages among a number of District Fund employes, or for recouping the permanent advance, or for payment to a postmaster for a money-order or money-orders issued for payment of stipends or rewards to gurus. Whenever money is paid to persons who are illiterate and unable to sign their names in acknowledgment, the payee shall make his mark; the fact of the payment shall be certified to by the officer who pays and by a witness of respectability.

43. The amount of every cheque shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person or persons who sign the cheque. The word "only" shall always be inserted after the amount written in words in the body of the cheque.

44. Every cheque drawn for a sum in excess of Rs. 20 shall bear a receipt stamp of the value of one anna, and such receipt stamp shall be affixed before the cheque is signed.

45. When a signed cheque is cancelled, it shall be enfaced or stamped "cancelled" by the Chairman, and shall be destroyed as soon as the accounts for the month in which the cheque was drawn have been audited by the Finance Committee.

46. The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque, upon the counterfoil, and also across the passing order which has been enfaced upon the voucher.

47. If the cheque is cancelled in the month of issue, before the cash-book is closed and before the abstract register has been posted all that is necessary is to strike out the entry in red ink under the initials of the Chairman. If, however, the abstract register has been posted, correction shall be made through the adjustment register by deducting the amount from the head of expenditure to which it was originally charged.

48. In rare instances it may happen that a cheque is cancelled after the accounts of the year have been compiled and published. In this case the cheque shall be removed from the list of outstanding cheques, and the amount shall be entered in the adjustment register as a miscellaneous receipt.

49. Cheques are current for three months only. After the expiration of that period, payment will be refused at the treasury, and the person in whose favour the cheque was drawn will therefore have to bring it back to be re-dated. No fresh cheque should be issued; the lapsed cheque shall simply be re-dated and the alteration initialled by the Chairman or official whose duty it would be to sign the cheque under rule. A note of the fact of re-dating shall be entered in the cash-book against the original transaction. The alteration will in no way affect the accounts, and no further entries shall be made.

50. Every bill or other claim for payment from the District Fund shall be presented in the first instance to the Accountant, who shall check and examine it, and if it be found correct and in order shall submit it for orders to the Chairman. If payment of the bill so presented is to be made, an order for the payment shall be endorsed upon it. The order for payment shall run as follows:—"Pay Rupees _____ only (Rs. _____), the amount being written in words as well as in figures, and shall be signed by the Chairman.

51. If payment is to be made from the permanent advance, the procedure laid down in rules 62 to 66 shall be adopted.

52. If payment is to be made by cheque, the Chairman shall cause the bill to be endorsed with the words "paid by cheque No. _____," and shall then sign the endorsement and cause the cheque to be drawn out, signed and issued. Whenever necessary and convenient to the treasury, cheques issued from the District Board's office may be enfaced at the district treasury for payment at a sub-treasury. In all such cases the cheque with the contractor's certificate or bill shall be sent from the District Board's office to the Chairman of the Local Board, where there is a Local Board, or to the Sub-divisional Officer in charge of the sub-treasury concerned for delivery to the payee, an advice under registered cover being sent at the same time to the payee. On delivery of the cheque, the contractor will sign the receipt on the certificate or bill form, and the Chairman of the Local Board, or Sub-divisional Officer, will return the bill direct to the District Board's Office.

53. When any payment is made either by cheque, or in cash from the permanent advance, it shall be immediately entered in the accounts of the District Board. In the former case it shall be entered in the cash-book Form No. III. In the latter case, it shall be entered in the permanent advance account Form No. XIII.

54. Every payment made, either in cash or by cheque, shall be covered by a receipt, stamped if necessary, signed by the person to whom the money is due, and to whom it has actually been paid. A receipt signed by another person for the creditor, or with a stamp, is invalid.

55. Bills and vouchers that have been paid by cheque shall be numbered consecutively for the year in order of payment, and shall be pasted in a guard book.

But sub-vouchers which have been paid in cash out of the permanent advance shall be separately filed, together with the recoupment voucher covering them. A memorandum instead of this voucher shall be pasted into the guard book mentioned above, viz. :—

MEMORANDUM.

Voucher No. _____, dated _____, for Rs. _____ in recoupment of the Chairman's permanent advance will be found in the separate file.

CASH-BOOK.

56. The District Fund cash-book shall be kept in Form No. III. The receipt entries in this book shall be made direct from the pass-book in the case of amounts credited direct to the fund by the Collector of the district, or remitted for credit otherwise than by the District Board itself. In the case of other receipts the cash-book shall be posted as soon as any money is received in the District Board's office by means of money-order irrespective of whether the money is immediately remitted to the treasury or not.

Expenditure shall be entered day by day as cheques are issued (see also Rule 53).

57. The cash-book shall be closed and balanced once a month and shall be signed by the Chairman. In the event of any cheques issued during a month remaining uncashed by the treasury at close of the month, there will necessarily be a difference between the balance brought out in the cash-book and that of the treasury pass-book, and of the certificate issued

by the Treasury Officer under Rule 93. This difference shall be explained by a note in the last page of the cash-book for the month in the following manner:—

	Rs.	A.	P.	Rs.	A.	P.

PERMANENT ADVANCE.

58. On first receiving or taking charge of the permanent advance, the Chairman shall sign and file an acknowledgment in these terms:—“I acknowledge to have in my possession a permanent advance of Rupees (Rs.), which sum is due from me to the District Board, and I am personally accountable for the amount.”

59. A similar acknowledgment shall also be given by the Chairman on the first working day of each year.

60. The permanent advance when first drawn shall be charged in the cash-book to the head “Advances,” and shall be debited to the Chairman’s account in the advance ledger.

61. There will be no further operations upon the ledger account until the advance is finally repaid. If the amount originally fixed for the permanent advance is subsequently increased or decreased by the District Board, the original advance shall be repaid and a fresh advance drawn.

62. The Chairman shall make payments from his permanent advance from time to time as may be required, and for each payment he shall obtain and hold a bill receipted by the payee, or, in the case of petty office expenses, a written detailed statement of the sums spent.

63. These bills or statements shall be numbered consecutively, en faced or stamped “Paid in cash,” and entered in the expenditure columns of the permanent advance account Form No. XIII the classification of the charges being carefully entered in the columns provided for the purpose.

64. The permanent advance may be recouped whenever necessary, and it must always be recouped on the last working day of the month.

65. The procedure of recoupment is as follows:—

The Chairman shall compare the sub-vouchers with the entries in the permanent advance account: he shall deface them by stamping them “cancelled,” so that they cannot be used again. He shall total and initial the column “amount of sub-voucher” in the permanent advance account, and also the amounts in the classification columns, the cross total of which should agree with the total of the column “amount of sub-voucher,” and shall rule a red ink line across the page.

66. The voucher for recoupment shall then be drawn out in Form No. XIV, and it shall be en faced with the usual payment order. The Chairman shall draw out a cheque in his own favour for the amount, and sign the entries in the recoupment columns.

ABSTRACT REGISTER OF RECEIPTS AND EXPENDITURE.

67. All the entries on the receipt side of the cash-book Form No. III shall be posted direct from the cash-book into the abstract register of receipts Form No. IV, and all the entries on the payment side of the cash-book shall be posted into the abstract register of expenditure Form No. V.

68. The abstract registers shall be posted as frequently as may be convenient, but in no case later than ten days after the close of the month to which the accounts relate.

69. Each item of receipt or payment appearing in the cash-book shall be posted separately into the abstract registers. Thus, if there be two or three payments on the same day on account of the same head of expenditure, there will similarly be two or three entries under the same head in the abstract register, i.e. the separate items appearing in the cash-book, and not the totals of the daily receipts or expenditure for each head, shall be posted into the abstract registers.

70. The columns of the abstract registers shall be totalled every month, and the totals of the cash transactions must necessarily be equal to the totals of receipts and payments in the cash-book.

ADJUSTMENTS.

71. For the record of transactions other than cash a register of adjustments shall be opened in Form No. VI, in which a few sample headings have been given in way of illustration.

The chief adjustments are—

- (1) Rectification of errors in classification.
- (2) The adjustment of a bill against an advance.
- (3) The charge to a head of expenditure by credit to deposits of a sum due on a contractor’s bill, which sum is retained as a security deposit.

These transactions shall be entered item by item in the register of adjustments Form No. VI, whence the totals pass into the abstract registers of receipts and expenditure.

72. The method of entry in the register of adjustments is as follows :—

In case (1), the adjustment shall be made by entering the amount in the space for "Adjustments by addition" in the column for the head to which the amount is to be added, and again in red ink in the space for "Adjustments by deduction" in the column for the head from which the amount is to be deducted. Both entries will be made on the receipt side if the amount is to be transferred from one head of receipt to another, and both will be made on the expenditure side if the amount is to be transferred from one head of expenditure to another.

In case (2), the adjustment shall be made by entering the amount in the space for "Adjustments by addition" in the column of the expenditure side for the head to which charges on account of the particular expenditure incurred are to be taken, and on the receipt side in the space for "Adjustments by addition" under the head "Advances recovered." A corresponding entry must of course be made on the receipt or credit side of the advance ledger Form No. XV of the person by whom the expenditure was incurred, and to whom the amount adjusted was originally advanced.

In case (3), the adjustment shall be made by entering the amount on the expenditure side in the space for "Adjustments by addition" in the column for the head to which the balance of the charges of the bill from which the deduction has been made has been taken, and on the receipt side in the spaces for "Adjustments by addition" under "Deposits received."

73. Adjustments made by deduction in the abstract registers shall always be written in red ink.

MONTHLY, QUARTERLY AND ANNUAL ACCOUNTS.

74. Registers of monthly receipts and expenditure shall be kept in Forms Nos. VII and VIII, and shall be compiled from the abstract registers. The monthly account in Form No. IX, posted from the monthly registers, shall be despatched to the Accountant-General, Bengal, not later than the 25th day of the month following that for which the accounts are due.

75. The quarterly and annual accounts shall be posted from the monthly account and shall be in Forms Nos. X and XI. The annual account shall be accompanied by a schedule setting forth the sums expended on each work under—

45—Civil Works—

Original works —

1. Civil buildings.
2. Communications.
3. Miscellaneous public improvements.

Water-supply and water works —

1. New tanks and wells.

Drainage works.

These details shall be obtained from the register of works which shall be carefully compared every month with the register of monthly expenditure Form No. VIII.

76. The quarterly account shall be published by lodging a copy, signed by the members of the Finance Committee and countersigned by both Chairman and Vice-Chairman, in the office of Magistrate and Collector of the district. The annual account shall be published by lodging a copy, signed and countersigned as above, in the office of the Magistrate and Collector of the district.

77. The quarterly and annual accounts shall be published as provided in the last preceding rule not more than one month after the close of the period to which they respectively relate.

ADVANCES AND DEPOSITS.

78. All moneys advanced to officers or employes of the District Board, or to contractors or other persons (whether on account of the permanent advance or otherwise), shall, in the first instance, be charged to the head "Advances" in the abstract register of expenditure and entered in the advance ledger Form No. XV. A separate account shall be opened in this ledger for each person to whom an advance has been given, and this account shall be credited with the amount of payments made, and of adjustments made, in the manner prescribed in case 2 of rule 72.

79. All sums of money received by way of security deposit from contractors or others, and all sums received which are not the property of the District Fund, and have been placed with the District Board for a temporary purpose only, shall be credited to the head "Deposits received" in the abstract register of receipts Form No. IV, and shall be entered on the credit or receipt side of the deposit ledger Form No. XVII. A separate account shall be opened in this ledger for each person by whom a deposit is made; and this account shall be debited with amount of repayments made, and of adjustments made, in the manner prescribed in .

80. Each separate account in the ledgers of advances and deposits shall be specially reviewed by the Chairman not less often than once a quarter. At the close of every month a list in Form No. XVI shall be prepared of outstanding advances, and a list of outstanding deposits in Form No. XVIII.

RENTS OF POUNDS, FERRIES AND LANDS, AND OTHER RECEIPTS THE DEMAND FOR WHICH IS
FIXED BEFOREHAND.

81. Printed and substantially bound registers of receipts on account of pounds, ferries, &c., the demand for which is fixed beforehand, shall be opened each year in Form No. XII, in which specimen entries have been made for guidance.

A sufficient number of pages shall be set apart for the index, which shall show—

Serial number.	Name of pound or ferry.	Name of lessee.	Page of register.
----------------	-------------------------	-----------------	-------------------

82. On the agreement with the lessee being signed and the security deposit paid, the accountant shall enter the serial number, name of pound, &c., in the index of the register, and shall fill up entries 1 to 9 at the heading of the page assigned to it in the volume, and shall post the amount deposited as security in the deposit ledger.

83. He shall then lay the agreement, the register, the deposit ledger, and the pass-book before the Chairman, who shall—

- (a) Initial the entry in the index to the register.
- (b) Carefully compare entries 1 to 9 in the register with the agreement.
- (c) See by reference to the pass-book that the deposit has actually been paid.
- (d) Initial the entry in the deposit register, and also the memorandum of security deposit received, at the foot of the register, and sign the certificate below entry No. 9 at the head of the register.

84. The accountant shall write up monthly the entries of progressive demands, payments, and outstandings in these registers, and on the 7th, or nearest working day of each month, shall lay before the Chairman or Vice-Chairman, the pound and ferry registers, the abstract register of receipts, and the pass-book, and the Chairman shall then take up the registers and examine the account of each pound or ferry for the previous month as follows :—

- (a) He shall check the receipt by reference to the entries in the pass-book.
- (b) Check the entries in the register with the entries in the abstract register of receipts in the column "Rent of pounds or ferries farmed out."
- (c) See that the progressive demand, progressive receipts and outstandings have been correctly written up, and place his initials in column 8.
- (d) Satisfy himself, by reference to the index, if necessary, that no pound or ferry account is missing from the register.

85. The Chairman or Vice-Chairman shall then proceed to deal with arrears and outstandings, and when action is taken by letter of demand or by remission or otherwise, he shall call for the register and record the action taken in column 9 and place his initials in column 10.

86. The security deposit, which usually amounts to one-fourth of the annual rent, will ordinarily be taken in satisfaction of the demand for the last three months of the year and shall be transferred by adjustment from "deposits" to "pounds" and entered in the pound register on the last day of the year.

87. If any part of the deposit has been taken as a fine for non-fulfilment of contract, the balance may be taken in part satisfaction of the demand during the last three months of the year, and if on the 31st March the deposit or balance of deposit will more than cover the demand, the balance will be refunded in cash to the lessee. But in no case may any sum be removed from deposit and transferred to another head except under the orders of the Chairman who shall at the time initial both the deposit ledger and the memorandum of the security deposit at the foot of the register.

AUDIT.

88. The Finance Committee appointed under section 55 of the Act shall audit the accounts of the District Fund before they are submitted to the Accountant-General, and shall certify the result and the correctness of the account as audited by them. The certificate shall be that given on the first page of the monthly account, form IX.

89. The accounts of the District Fund shall be examined and audited by the Examiner of Local Accounts in Bengal as far as possible not less often than once in twelve months.

90. In auditing the accounts, the Examiner shall see that they have been kept and are presented in proper form; that the particular items of receipt and expenditure are stated in sufficient detail; and that the payments are supported by adequate vouchers and authority. He shall examine whether all sums received, or which ought to have been received, are brought into account, and also whether the expenditure is in all cases such as might lawfully be made. He shall also reduce such payments and charges as are exorbitant; and shall surcharge moneys not duly accounted for, or lost by negligence, upon the person who ought to account for the same, or whose negligence or improper conduct has caused the loss; and shall disallow and strike out such payments as are not authorised by law or competent authority.

91. The reports of such examinations shall be forwarded by the Accountant-General, Bengal, to the Commissioner of the Division who shall forward it to the Chairman of the District Board through the Magistrate of the district, if he is not the Chairman, and the Chairman shall be bound to remedy any defects or irregularities that may be pointed out by the Accountant-General or the Examiner.

LOCAL BOARDS.

92. The statement of requirements and estimate of probable expenditure to be submitted by the Local Board to the District Board under section 51 of the Act shall be in Form No. I, and shall be accompanied by full explanatory notes for each head of account in respect of which the Local Board has been empowered under section 101 of the Act.

93. The District Board shall forward to each Local Board subordinate to it an extract of so much of the budget estimate of the District Fund, as sanctioned, as relates to the matters under the control and administration of the said Local Board.

94. The District Board shall from time to time make allotments of funds to each Local Board subordinate to it for expenditure on the matters under their control and administration.

95. In making any such allotment, the District Board shall send an intimation to the Sudder Treasury Officer, who will advise the officer in charge of the treasury or sub-treasury at or near the head-quarters of the Local Board concerned of the amount allotted to such Local Board.

96. On receipt of such intimation, the officer in charge of the treasury or sub-treasury shall place the amount of the allotment to the credit of the Local Board, and shall enter it on the receipt side of the pass-book of the Local Board. The Local Board shall obtain funds by drawing cheques against the amount of the allotments thus placed at its credit from time to time. These cheques shall be signed by the Chairman or Vice-Chairman of the Local Board if their amounts be below Rs. 100; otherwise they shall be signed by both Chairman and Vice-Chairman.

97. Moneys paid into a sub-treasury on account of the District Fund shall not be credited in the pass-book of the Local Board; but shall, when incorporated in the Sudder Treasury account, be credited in the pass-book of the District Board. The Local Board shall send an account of such payments to the District Board not less often than once a month.

98. The Local Board shall keep a cash-book in Form No. III. On the receipt side shall be posted the allotments made by the District Board from time to time; and on the expenditure side shall be posted details of the cheques drawn by the Local Board against the amount of those allotments.

99. The cash-book shall be closed and balanced on the last day of each month, and signed by the Chairman of the Local Board; and an authenticated copy thereof, supported by vouchers in original, shall be sent within seven days to the Chairman of the District Board.

100. The transactions of the Local Board, as exhibited in the authenticated copy of their cash-book, shall be scrutinized and passed by the Chairman of the District Board, and shall be at once incorporated in the cash-book and other accounts of the District Board.

MISCELLANEOUS.

Middle Vernacular School-bills.

101. The following procedure is to be adopted in cases where it is found inconvenient to require that the fees and fines realized in middle vernacular schools should be remitted to the treasury, and where consequently they are allowed to be retained in part payment of the expenses of the school. As this practice necessitates the opening of a special register, and entails an appreciable increase of work in the account branch of the office of the District Board, it should not be adopted unless the remittance of school-fees to the treasury is really a matter of considerable difficulty.

Each bill as it is received shall be entered in a register in Form No. XXI.

The cheque for the net amount may be distributed in the cash-book and abstract register among the detailed heads "Masters," "Servants," and "Contingencies," as may be found most convenient, e.g. in full payment of any head or heads which it will cover and in part payment of another.

The register shall be totalled monthly, and will enable the correct distribution of the charges as they finally stand to be verified at a glance. The credit to "Fees and fines" and the equivalent charges made by adjustment will then pass on through the adjustment register to the abstract registers in the line "Add adjustments."

Unpaid money-orders.

102. A register in Form No. XXII shall be opened for money-orders which the Postal Department refunds to the District Board owing to the payee not being found.

The register will serve the double purpose of providing a means of watching that these refunds are brought to credit, and, in case of the payee afterwards making application for the money, of ascertaining whether the sum is due from the District Board or from the Postal authorities.

Record of service.

103. A service-book in form No. XX, printed in English and the vernacular, shall be supplied at his own cost to every employé holding a substantive appointment on the permanent establishment of a District Board. It shall be kept in custody of the Chairman, whose signature as well as that of the employé on the first page shall be attested every five years.

The service-book is a contemporary record of the employé's official life, including leave of every description, every period of suspension from employment, and every other interruption of service, with full details of its duration. Every entry relating thereto shall be written across the page, and attested by the Chairman, or Vice-Chairman, or the Secretary.

104. The Chairman or Vice-Chairman is primarily responsible that every necessary entry is made, especially in regard to leave or suspension, but it is also the duty of each

employé to remind the Chairman, Vice-Chairman, or Secretary, when any entry is necessary, and to see that his own service-book is properly written up and attested. It should be carefully explained to each employé that, unless he does so, there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered. Service-books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not.

At the time of preparing the pay bill for March in each year, a detailed statement of the permanent establishment existing on the 1st April should be prepared in Form XXIII and transmitted to the Accountant-General direct not later than the 15th April. In preparing the statement the following instructions should be carefully observed:—

- (a) The name, designation, and pay of every officer, clerk, or menial servant holding a permanent appointment, whether on duty, or absent on leave, or under suspension, should be distinctly shown.
- (b) The date of birth, of appointment to present post, and of promotion to present pay of each person should be entered in the appropriate columns of the statement; the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated.
- (c) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "Name of Incumbent" beneath the name of the absentee for whom he is officiating.
- (d) If the acting incumbent holds a permanent appointment upon another establishment, the fact should be stated.
- (e) A detailed statement in Form XXIIIA should be given at foot of the original return Form XXIIIB, showing new names of officers which are not found in the return of the previous year, and when these new names include those of persons who have entered the service of the District Board for the first time, their age and health certificates should be attached to the statement. Columns are also provided in Form XXIIIA for information required in regard to the names of officers which appeared in Form XXIIIB of the previous year, but are now omitted, as also regarding officers who have been on leave, other than privilege leave, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension.
- (f) If any person on the establishment is a Government pensioner, or is not the servant of the District Board solely, the fact should be noted in the statement. If he be an officer transferred from the pensionable service of Government, for whose pension contribution is paid, a note should be entered against his name to the effect "Contribution paid to Government for pension."

When completed in accordance with the preceding instructions, the statement should be carefully checked with the service-books, as it will be the authority by which hereafter pension claims will be tested by the Accountant-General.

Application for Pension or Gratuity where rules for the grant of the same have been framed and sanctioned.

105. When an officer applies for an invalid pension or gratuity, he should be referred, if his age be less than 60 years, to the Medical Officer in charge of the civil station of the district for medical examination. After he has been declared by the Medical Officer to be unfit for further service, he must not be retained in active service, pending a decision on his application for pension. Service after the date of the medical certificate does not count for pension.

106. After the medical certificate of incapacity for further service has been received, an application for pension or gratuity in Form XXIV should be drawn up, and the applicant's service detailed in page 2 of the form verified from office records, and the result of the verification noted in the column provided for the purpose.

107. In the case of pensions or gratuities other than invalid, the applicant's services should be verified, and the form of application filled up in the same way as in the case of invalid pension, when application for pension or gratuity is made by the applicant.

108. The Chairman should certify on the application, whether the character, conduct, and past services of the applicant are such as to entitle him to the favourable consideration of the District Board. If the application is for pension on the superior scale, he must enter all periods of leave, suspension, &c., which are not reckoned as service. He must also record his opinion whether the service claimed has been established, and should be admitted or not.

109. The application in Form XXIV, with the applicant's service-book, his last-pay certificate, the medical certificate of incapacity for further service (if the application is for an invalid pension), and the documents relied upon for the verification of the service claimed, will then be forwarded to the Accountant-General, who will return the papers with a certificate as to whether the service claimed has been duly proved, and whether the pension applied for is admissible under the rules.

110. The application with the Accountant-General's certificate and other papers will next be laid before the members of the District Board in meeting for sanction.

111. After the close of each quarter, the Chairman should submit to Government, through the Accountant-General, a statement in Form XXV of the pensions and gratuities sanctioned during the quarter. Where this statement is blank, a simple intimation to that effect will suffice.

Payment of Pensions and Gratuities granted under sanctioned Rules.

112. When the payment of a pension or gratuity shall have been sanctioned by the District Board, the amount, if it be gratuity, may be paid in a single sum; but if it be pension, it shall ordinarily be paid monthly to the pensioner in person at the office of the District Board on an authority issued in Form XXVI.

113. On the issue of the authority in Form XXVI for the payment of pension, it should be entered in a register in Form XXVII. On appearance of a pensioner claiming pension, his personal marks should be checked, and his signature to the receipt for pension compared with that given in the register and the payment noted on the back of the order in Form XXVI, which must be presented every time payment is claimed.

114. A pensioner, who is unable to appear in consequence of bodily illness or infirmity may receive his pension upon the production of a life certificate signed by some well-known and trustworthy person approved by the Chairman. In such cases, the disbursing officer, who is personally responsible for any payments wrongly made, must take all possible precautions to prevent imposition, and must, before the first payment of each year, require proof not only of the existence of the pensioner, but also of his inability to attend in person to receive payment.

115. If a pensioner or a person entitled to gratuity dies, payment of any arrears actually due may be made to his heirs, provided that they apply within six months after his death. Even if the pension or gratuity has not been sanctioned before the death of the officer, the payment may be made under special sanction of the members of the District Board in meeting. If an officer dies before actually retiring, or being discharged, his heirs have no claim to anything.

NOTE.—Pension can be drawn for the day of the pensioner's death: the hour at which death takes place has no effect on the claim.

116. If a pension remains undrawn for more than six months, it ceases to be payable, and if the pensioner afterwards appears, the Chairman before resuming payment is to satisfy himself that the claimant is the identical pensioner, and that he could not draw his pension owing to circumstances to be fully explained.
